SUMMARY

Detail-oriented and highly motivated Computer Science graduate with strong hands-on experience in full-stack web and mobile application development. Proven ability to design and develop real-world websites for clients and build applications under competitive environments. Finalist in the WorldSkills Malaysia Belia (WSMB) Web Technologies. Passionate about building efficient, scalable, and user-friendly digital solutions.

EDUCATION

Diploma in Computer Science

Jul 2023 – Feb 2026

Universiti Teknikal Malaysia Melaka (UTeM), Malacca

CGPA: 3.89

Related Coursework:

*Programming, Database, Object Oriented Programming, Data Structure and Algorithms,
Discreet Mathematic, Statistic and Probability*

Sijil Pelajaran Malaysia (SPM)

Mar 2021 - Mar 2023

SMK Tun Haji Abdul Malek, Malacca

Result: 8A

PROJECT

Sabah Teachers Union – Content Management System

- Developed a dynamic CMS website using Laravel and MySQL
- Built admin panel for managing website content
- Implemented authentication, role-based access control, and CRUD operations
- Structured database and backend logic to support content management workflows
- Deployed and configured the system in a live cPanel hosting environment

Rosfinah & Co– Static Company Website

- Developed a responsive static company profile website using Next.js
- Implemented modern UI layout and optimized page performance
- Structured reusable components and clean routing for maintainability
- Deployed the website to production using Vercel hosting platform

EXTRACURRICULAR

WorldSkills Malaysia Belia (WSMB) Web Technologies 2026 – Finalist

- Selected to compete at the final stage among top participants nationwide.
- Developed applications based on strict design specifications and business rules within limited time.
- Demonstrated strong problem-solving, time management, and full-stack development skills under pressure.

WorldSkills Malaysia Belia (WSMB) Mobile App Development 2024 – Participant

- Developed applications based on provided based on the provided design and resolved issues in accordance with business rules.
- Planned a strategy to independently develop the application within a short timeframe.

Code Craft Competition 2024 – Department Level (Diploma) – 2nd Place

- Solved programming challenges under strict time constraints using manual paper-based debugging techniques.
- Analysed and corrected code logic, syntax errors, and output flow without the use of compilers.
- Strengthened problem-solving skills, logical thinking, and ability to trace program execution step-by-step under pressure.

Code Challenge Arena – Participant

- Solved problems using the C++ programming language collaboratively in groups of four.
- Corrected syntax errors and visualized outputs generated from questions using Python, Java, PHP and C++ programming languages.

SKILLS

- **Software**
 - i. Microsoft Office Suite:
 - Advanced: Word, PowerPoint
 - Intermediate: Excel
- **Technical**
 - i. Programming Languages:
 - Advanced: HTML, CSS, MySQL, JavaScript, Java, PHP, Dart
 - ii. Frameworks:
 - Advanced: React, Next.js, Node.js, Express.js, Laravel, Flutter
 - iii. Tools:
 - Advanced: VS Code, Postman, GitHub, Antigravity
 - iv. Deployment & Hosting:
 - cPanel deployment, domain configuration, database setup, file management, and production hosting
- **Language**
 - i. Malay Native
 - ii. English CEFR B1 (MUET Band 3.5)

ACHIEVEMENT

- Dean's List Award Recipient for All Semesters

CERTIFICATION

- Certified Dart Programming from Beginner to Advance
- Certified Flutter Development Bootcamp
- Certificate of Participation in the WorldSkills Malaysia Belia (WSMB) Skills Competition Pre-Qualification Level 2024 (Mobile Application Development)
